

PUBLIC NOTICE

Notice #08687-02 December 9, 2015

As required by Section 280.67 of the S.C. Underground Storage Tank Control Regulations (R.61-92), the S. C. Department of Health and Environmental Control (Agency) is taking public comments on a Corrective Action Plan (CAP) Addendum. This CAP Addendum addresses the cleanup of soil and groundwater contamination at the facility listed below. The contamination was caused by petroleum products that were released from the underground storage tank (UST) system at this facility.

FACILITY: Former Building 1602/OU 7/ST-18/SWMU 87, Shaw AFB, Sumter, SC.

APPLICANT: URS Group, Inc., 1600 Perimeter Park Drive, Suite 400, Morrisville, NC on behalf of the U.S. Army Corps of Engineers (USACE)- Omaha District, 1616 Capital Avenue, Omaha, NE and Shaw AFB, SC.

SUMMARY OF CAP: Petroleum and petroleum byproducts naturally break down over time through chemical, physical, and biological processes. These processes are called natural attenuation. URS has submitted a CAP Addendum proposing the use of the following technology in addition to natural attenuation to clean up the contamination:

 Aggressive Fluid and Vapor Recovery (AFVR): High vacuum is applied to recovery wells to remove petroleum constituents, petroleum vapors, and petroleum-impacted groundwater from the subsurface.

PUBLIC COMMENT PERIOD DEADLINE: The deadline for submitting written comments is 5 PM, January 9, 2016. Any interested person(s) may submit written comments concerning the cleanup to the Project Manager listed below. Please bring this notice to the attention of persons whom you know will be interested in this matter. Where there is a significant degree of public interest, the Agency will hold a public hearing.

Joel P. Padgett, P.G. SCDHEC - UST Management Division 2600 Bull Street Columbia SC 29201 803-898-0655

CONTACT INFORMATION: For additional information, please call the Project Manager listed above. To view a copy of the CAP Addendum, contact the Agency's Freedom of Information Office at 803-898-3882.
